

onyx

AVANTI ELECTRIC

fires beyond imagination

pure experience

Bringing together over 40 years of British design and engineering, the Onyx Avanti delivers the new ultimate in electric fire innovation. Crisp flame visuals appear to dance and soar between true-to-life log effects, dynamically lit from all angles for absolute immersion.

But the Avanti is far more than an electric fire. Layer upon layer of visual technology weaves a palette of captivating lighting effects, which can be adjusted to transform your interior. The result? An atmospheric experience tailored to every mood.

choose your mood

What if you had the power to change almost every aspect of your fire's character? What if you could control every detail, every shade, every mood? Whether you need the aura of a captivating log fire, or something more, the Onyx Avanti's Chromalight® Plus technology combines a range of mesmerising effects to create the ambience you desire.

ENGINEERED FOR AMBIENCE

The Avanti's ChromaLight® Plus technology lets you adjust the colours of the primary flames, secondary flames, log lighting, ember bed lighting and down-lighting.

Each lighting system can be set to matching or contrasting shades to create a truly bespoke focal point. Lock any of the Avanti's visual effects to set colours or a gradually changing Spectrum mode. The main flames, down-lighting and ember bed up-lighting can all be synchronised using either the Avanti app or remote control.

DESIGN YOUR FLAMES

The Avanti's defined flames are projected to appear between the logs and their reflection, to create a three-dimensional display. Dual flame visuals can be independently controlled with adjustable brightness levels for a full or flickering flame picture.

Both primary flames and secondary flames offer various natural tones as well as an array of vibrant shades that can be blended and contrasted.

Flame Speed

We all have a different idea of the perfect flame. To help you find yours, the Avanti's flame speed can be sped up or slowed down to create the rhythm that works for you.

Optional Split Silver Birch Log-effect

Split Oak Log-effect

OPTIONAL MOOD LIGHTING

Powerful mood lighting systems allow the Avanti to create additional ambience in your home. Up to 6 metres of flexible LED strips can be installed around a TV or along shelves to enhance your fire's glow.

A CHOICE OF TRUE-TO-LIFE LOGS WITH GLOWING EMBERS

Every tiny detail and texture of the Avanti's choice of log effects has been meticulously replicated from oak and silver birch, gathered from nearby our Devon laboratories. Each log rests on a glowing ember bed, composed of ash-dusted blackened glass and lava rock chippings.

Oak or Silver Birch

The Avanti range features a Split Oak log effect set (shown left & above) that can be easily switched at any time for the optional Split Silver Birch log set (shown above), to give the fire your own bespoke character.

Hidden Log Lighting System

To capture the life and soul of a wood fire, specially designed Burnt Ember Logs house hidden lighting systems, casting a natural, ever-changing glow on the Avanti's larger split oak or silver birch logs to simulate real burning wood.

Avanti 150RW with Split Oak Log-effect, installed as a two-sided fire. Shown with optional Mood Lighting System.

tranquillity on command

Two complimentary control systems put the Avanti's range of visual and heating capabilities in the palm of your hand. Instantly select your favourite settings... and relax.

Innovative app for complete control

Designed from the ground up to be driven with a powerful app, the Avanti's full potential can be unlocked with an iOS or Android smart device – giving you all the functionality of the remote control and more.

Finer Tuning

The app displays all settings clearly on your smart phone or tablet screen, giving you precision control over the Avanti's Chromalight® Plus LED systems. Brightness and flame speed are easily adjustable thanks to the app's slider controls. See page 22 for more information.

Programmable thermostatic heating and flame visuals

Easily program your fire to provide different heating schedules using the app. Create up to four daily heating schedules to suit your lifestyle with room to save up to three weekly programs. Flames and lighting visuals can also be scheduled if desired.

Download the app using the QR code or visit:
onyxfires.com/avantiapp

Alternatively you can search for MUS flame in the App Store.

Avanti 190RW with optional Split Silver Birch Log-effect, installed as a two-sided corner fire.

Eco Remote

The Avanti's Eco handset gives you control over the fire's core features, which are also controllable via the Avanti app. See page 22 for more information.

onyx. experience the exceptional.

When you choose Onyx, you are choosing more than just a fire or stove. You are choosing the pinnacle of British innovation and quality. You are choosing prestige.

As part of the Stovax Heating Group, Onyx is the culmination of over 40 years of experience designing and crafting best-in-class flame effect fires. Every fire and stove is born in our state-of-the-art research and development laboratories, and incorporates industry leading technology and design.

Offering a renowned and varied product range, the Stovax Heating Group's portfolio includes everything from the traditional to the ultra-contemporary in a wide array of styles and sizes. Full details of the Stovax Group's range of products can be found at: stovax.com.

The Stovax Heating Group is an ISO9001 and ISO14001 accredited company. Our rigorous quality control system ensures that all our appliances are safety checked and that they comply with the appropriate regulations, with all fires in this brochure bearing the CE and UKCA mark. Similarly, our environmental management systems ensure we work in a sustainable manner, whilst endeavouring to protect the environment by minimising any possible impact from our operations.

THE ONYX RETAILER NETWORK

We take great care to ensure that our fires are designed, tested and manufactured to the highest possible quality and safety standards. We are just as determined to make sure they are sold and installed correctly so that you will enjoy years of pleasure from your purchase.

Accordingly, you will find our Avanti range is exclusively available from our experienced, independent retailers' showrooms. They will be happy to show you a selection of models in your local showroom and answer any questions you might have. These independent retailers will discuss your individual requirements covering both technical issues and design, to ensure that you select the most appropriate product for your home. They will also be able to advise on, or assist with, the installation process as well as help provide any after-sales support and servicing your appliance may require in the future.

Whilst we encourage our retailers to promote fireplace products and their outlets via the internet, we do not believe suitable levels of customer care and satisfaction can be obtained from purchasing the product only online. We would strongly recommend that you consider this when undertaking your research and making a purchasing decision. Please be aware that we do not offer technical support (beyond our statutory responsibilities) to products bought via nationwide online sales, where this support would normally be offered by one of our qualified, independent retailers.

In addition, Onyx fires purchased from within our Expert Retailer Network will have the additional benefit of an extended warranty period, subject to terms and conditions. Full details can be found at: onyxfires.com.

the onyx promise

Your Onyx retailer will provide you with a Three Year Warranty for your new electric fire providing it is registered with Onyx. Please note this warranty excludes certain consumable parts. Fires purchased outside of Onyx's Expert Retailer Network will carry a standard One Year Non-Extendable Warranty. Full warranty terms and conditions are available at: onyxfires.com

AVANTI 110RW

MILAZZO SUITE

Designed to complement the Avanti 110RW, the Milazzo Suite gives you a range of elegant options to easily create your dream fireplace.

Fixing flat against a wall for a quick and easy installation, the Milazzo's modular design can be tailored to create a floating focal point or floor-to-ceiling centrepiece.

Avanti 110RW with Split Oak Log-effect, installed with Milazzo Suite floating shelf and one top section in white.

Choose from either a wall-mounted floating shelf or a solid bench beneath the fire, in either neutral white or sophisticated grey. Each mounting option is crafted from high quality steel and features a stylish black top surface to lend further definition to the Avanti's glowing fuel bed.

Matching steel top sections in white or grey can be stacked above the fire to add vertical presence or even create a striking chimney breast aesthetic.

See page 10 & 21 for additional image and configuration options.

Avanti 110RW with Split Oak Log-effect, installed with Milazzo Suite base in grey, two top sections in white and grey, and plinth and infill options.

Key Details

- Easy to install, flat-wall-fix
- Floating shelf or bench mounting options
- Modular top sections can be stacked for increased height
- White and grey finish options
- Various plinth and infill options
- Decorative columns
- High quality steel
- See pages 20 - 21 for all Milazzo options

convenient control

Both the innovative app and Eco Remote Control allow you to adjust the Avanti's array of Chromalight® Plus visuals and convenient heating settings.

Main Flame and Flame Palette

The Avanti's primary and secondary flames can be independently set to eight different colours or the Spectrum Mode, a rolling cycle that gradually transitions through all colours. Speed and brightness can be tailored to create a bespoke visual.

Glowing Embers

Beneath the logs and ember effects, the Avanti's up-lighting LEDs can be set to eight colours to either match or contrast with the flames. Like the flames, there is also a Spectrum Mode to cycle through each colour as well as adjustable brightness for all settings.

Natural Log Lighting

Burnt Ember Logs illuminate the Avanti's Oak or Silver Birch log effects, and feature 12 colours and a Spectrum Mode setting with adjustable brightness.

Down-lighting

Hidden in the top of the Avanti's firebox are discreet down lighting LEDs which bathe the fuel effects in eight different hues to either match or contrast with the Avanti's other settings, adding to the immersion.

Synchronise Visuals

The Avanti's Sync feature lets you synchronise the Ember bed up-lighting and down-lighting with the Main Flame colour, to easily create a corresponding display.

Quick Start Pre-sets

Need instant ambience? Select from any of the Avanti's six stunning pre-sets (shown below) ranging from natural to contemporary. You can also save up to three custom combinations with your preferred settings for easy access.

Optional Mood Lighting

Effortlessly control the Avanti's optional Mood Lighting system using either the remote control or the app. Choose from 13 different colours or the gradually changing Spectrum mode to transition through each colour.

Thermostatic Heating

Choose your preferred room temperature and the Avanti does the rest for you. Select between 15°C and 25°C and the fire's 2kW heater will adjust its power to reach the desired level as efficiently as possible. Turn off the heat entirely to enjoy the Avanti's visuals during the warmer months.

Adaptive Start Control

Adaptive Start allows the Avanti to automatically turn on up to 45 minutes in advance of a pre-set time to reach the desired room temperature, ready for when you sit down and relax.

Open Window Detection

Should ambient room temperatures drop by 4°C within a space of five minutes, like when a window is opened, the Avanti's heater will automatically turn off to save energy. Heating can be easily resumed with the remote control or app.

Timers and Scheduling

The Avanti also allows you to programme individual day and weekly schedules for both flames and heat, providing warmth or ambience exactly when you want it.

Ecodesign Compliant

The Avanti's innovative energy saving features make it compliant with stringent Ecodesign energy product standards.

Plus 3 slots to make your own bespoke presets

+3

The Avanti's app lets you do everything the remote control can do and more! See page 6 for more information.

avanti fire & tv size guide

Sizing your Avanti and your TV

Choosing the size of your Avanti electric fire and your TV will come down to both the space you have available and your personal preference. Actual TV sizes vary across manufacturers, and the way your TV is fitted (for example into a cavity recess) will also impact the way it looks in relation to your Avanti fire. Your retailer will often be able to help you size up your Avanti and TV to achieve the perfect look.

Suggested Avanti and TV size combinations

Product	TV size*
Avanti 110RW	43" - 55"
Avanti 150RW	50" - 65"
Avanti 190RW	65" - 75"

*TV sizes refer to the standard diagonal screen dimension that TV manufacturers state when describing the size of their products. If sizing your existing flat screen TV, measure diagonally from the top left of the screen to the bottom right to find the TV's advertised size. We also recommend measuring the width and height of your TV if lining it up with the Avanti below.

WIN the cost of your fire back!*
